

NEW PRODUCTS INFORMATION by CRAFT &co.,Ltd. May. 2021

LOLOMA (sides)
39387
 Average: 240 SqDm
 Thickness: Approx. 2.2 mm
 Available colors: 12
 JPY 137 / SqDm

Loloma is popular because it gives off a jewel-like luster when polished. It spends the time and effort of tanning domestic steerhide twice with vegetable tannins, and it is soaked with plenty of oil and wax. Its grain side, which is strong and heavy and moist, becomes more glossy and colored as you use it, and you can fully enjoy the changes over time.

LOLOMA CUT LEATHER
 size: 30 cm width / 60 cm width
 Available colors: 12
39388 30 cm width
 (thickness approx. 2.2 mm)
39389 30 cm width (1.2 mm)
39390 60 cm width
 (thickness approx. 2.2 mm)
39391 60 cm width (1.2 mm)
 JPY 137 / SqDm

It is a cut leather that is cut in half with an even width.

how to order
 1. Please choose 30cm width or 60cm width.
 2. Please specify the thickness before ordering. * Please enter the item number for the thickness shown in the above table.
 * Thickness not listed in the above table will be charged separately.
 3. The price will be calculated from the size after cutting, and the person in charge will contact you.
 * Estimated size 30cm width: about 15-35DS, 60cm width: about 35-70DS

About the condition and cutting of leather
 *We will cut the cow half cut in a straight line from the back to the abdomen.
 *We cannot accept specifications for leather parts or conditions.
 *Since it is a natural material, it may contain scratches, wrinkles, color unevenness, etc. depending on the individual.
 *Since we will cut the item after receiving your order, it may be difficult to ship it on the same day.
 *Some errors may occur in the dimensions depending on the climate.

About leather thickness and making
 *If you specify a thickness not listed in the above table, you will be charged a separate making fee and a time of about 3 days.
 *We do not accept returns for leather made to a thickness not listed in the above table.

SADDLE LEATHER RED (sides)
9033-07
 Average: 240 SqDm
 Thickness: Approx. 2.5 mm
 JPY 157 / SqDm

A new color has been added to the standard saddle leather. Cowhide that has been carefully tanned in an astringent tank by a long-established domestic tanner and has well-tightened fibers. The natural luster of the glazing process, which is polished with a glass roller without using a finishing agent, is attractive.

SADDLE LACE RED
 3 mm width x 180 cm **3561-07** (1.7 mm thickness) JPY 374
 4 mm width x 180 cm **3562-07** (1.7 mm thickness) JPY 484
 5 mm width x 180 cm **3563-07** (1.7 mm thickness) JPY 605

You can enjoy tasty aging with saddle lace with a supple and chewy texture. With two laces, you can make braiding wallet rope of about 50 cm.

REPAIR LEATHER COLOR 6 COLOR SET
32005 JPY 1,089

A repair pen that makes slight discoloration, scratches, and peeling off of the surface inconspicuous. A set of 6 colors, black, dark brown, brown, ocher, gray blue, and gray, which are ideal for leather products, can be repaired to a natural texture just by applying it. Since it is oily, it dries quickly and is not shiny.

*please note
 - Cannot be used for raised leather such as leather shoes, suede, and nubuck.
 - Please try it in an inconspicuous part before use.

LEATHER CURE DISINFECTANT ANTIBACTERIAL MIST
32006 100ml JPY 1,320
32007 300ml JPY 2,750

A non-alcoholic mist spray that is effective in disinfecting and antibacterial leather products. By adhering the active ingredient to the material, it removes bacteria and prevents growth. Proven to be SIAA certified safe and free of environmentally friendly substances, it can be used not only for grain leather, but also for brushed leather, nylon and fabrics. Antibacterial effect lasts for about 1 week.

Liquid: weakly acidic
 Ingredients: antibacterial agent, cationic surfactant, water
 * Reliable SIAA registered products
 * Not all bacteria are effective.

EASY HAND-SEWN LEATHER ACCESSORIES STARTING FROM ZERO
36230 JPY 1,760

This is the first book written by Mr. Matsuzaki, who presides over m's, who is particular about hand-sewn leather and conducts production and workshops. With as few tools as possible and making it simple, he has a lineup of items that are easy for beginners. All 19 items introduce color variations and arranges. Comes with a full-scale paper pattern.

New standard color black, Dar

Dar metal fittings that match various leather colors and expressions such as vegetable tanned leather, oil leather, and colorful chrome tanned leather, and are used in many items such as bags, belts, and accessories. The semi-matte black color chicly coordinates the atmosphere of the item itself, while asserting its existence. It is a new standard metal fitting that is now used for items of various brands regardless of men's or ladies'.

TY-BLADE HOLDER (LIMITED QUANTITY)

38402 JPY 1,815

A lightweight blade holder suitable for fine cutting. You can attach the optional clicker knife replacement blade 28156 straight blade (JPY 1,265), 28157 curved blade (JPY 1,650), or its commercially available cutter replacement blade. Both right-handed and left-handed are supported depending on how the blade is attached.

TY-SEMICIRCLE TEMPLATE (LIMITED QUANTITY)

38403 JPY 2,970

A semi-circular template that makes it easy to draw arcs when designing or drawing. It is set so that 18 semicircles can be drawn at 5 mm intervals from a radius of 10 mm to 95 mm. An angle memory is printed on the plate to add protractor function.
